Introduction

This guide is for managing the web content for the Katikati Rotary Club. It contains details on how the members portal allows users to make changes to the web pages.

The home page has the following structure:

- Navigation bar
Member log in / member area, navigation bar links
- Welcome section
A carousel of rotating images and text box
- Front Story section
Display image and text box
- Socials section
Facebook link, membership link, members portal, rotary links, upcoming events, calendar
- Club News section
Club news, link to the stories page

*** Important distinction to be made here: club news and stories page are separate libraries. They are intended to show different stories, or some overlapping.*

The Members Portal

The **Members Portal** is designed to allow users to easily edit the content within these sections. The links take you directly to the relevant ClubRunner pages where the content can be edited.

Once on these pages, the inbuilt editors provide a range of options for managing and updating the content.

The following chapters will work through each section of the Members Portal, explaining the available options and providing recommendations for managing the content.

Navigation route from ClubRunner will also be included for your reference.

Members Portal

Update Home Page Content Welcome Carousel This will allow you to add, remove, change the images that appear in the rotating carousel. Welcome Information This will allow you to edit the text within the welcome section. Front Page Story This will allow you to edit the image and text within the front page story section.	Add Event To Calendar Follow the link to head to the events page. From there you can create or manage events in the system. When a future event is published, the event is automatically added to the calendar and upcoming events, which can be seen on the home page. Events Page	Update Stories Club News This will allow you to manage the stories that appear on the home page. Stories Page This will allow you to manage the stories that appear on the stories page.

Update Home Page Content – Welcome Carousel

Welcome carousel refers to the display of rotating images at the top of the Home Page. Editing the carousel will allow you to add, remove, and reorder images.

Image Recommendations

Images should be cropped to a consistent **aspect ratio** before uploading. It's recommended to use **16:9** for the Welcome Carousel.

For the best results images should be at least **1920 x 1080 pixels¹**. Larger images can be used, provided they are cropped to the correct aspect ratio.

Maintaining the same aspect ratio ensures that images occupy the same amount of space and prevents images from appearing stretched or distorted.

Photos for Home Page Carousel

Add images

Upload Photos

Drag and drop photos to change their sequence.

THUMBNAILS	TITLE	DESCRIPTION	CREATED BY	CREATED ON	ACTIONS
			Jenie Strongman	Oct. 09, 2022

Edit or delete photos

ClubRunner Site Admin → Website Content: Content Libraries → Photo Album Library
→ Home Page Carousel

¹ Pixel dimensions are the same as image dimensions. Right click → get info on the image file to find the details.

Update Home Page Content – Welcome Information

Welcome information refers to the text box below the carousel. Introduce the audience to the club here. This box is intended for text only, adding images may affect the layout. Font size, font style and other options are available using the inbuilt formatting options.

For best results use the options to format the title as a heading and format the text as paragraph.

The screenshot shows the 'Welcome Information Content' editor. At the top, a box labeled 'Inbuilt formatting options' points to a rich text toolbar. The toolbar includes icons for undo, redo, bulleted list, numbered list, decrease/increase indent, link, unlink, table, link icon, unlink icon, bold, italic, underline, strikethrough, subscript, superscript, text color, background color, text alignment (left, center, right, justified), and a source icon. Below the toolbar, the text 'Welcome to the Katikati Rotary Club' is selected and formatted as a heading. A box labeled 'Heading selected for title' points to this heading. Below the heading is a paragraph of text: 'We are a group of local volunteers committed to making a positive difference in our community. Through service projects, fundraising, and community partnerships, we support local initiatives while contributing to Rotary's global mission. We welcome anyone who shares a passion for service, connection, and creating lasting impact.' At the bottom left, it says 'Total characters: 489/150000'. At the bottom right, there are three buttons: 'Cancel', 'Save as Draft', and 'Save and Publish'.

Welcome Information Content

Inbuilt formatting options

Heading 1

Welcome to the Katikati Rotary Club

We are a group of local volunteers committed to making a positive difference in our community. Through service projects, fundraising, and community partnerships, we support local initiatives while contributing to Rotary's global mission. We welcome anyone who shares a passion for service, connection, and creating lasting impact.

ClubRunner Site Admin → Website Content: Content Libraries → Global Custom Widgets → Welcome Information

Update Home Page Content – Front Page Story

The **Front Page Story** is the section that follows the Welcome Text. It is intended to showcase a relevant story, event or other content that you would like visitors to see.

When editing this section, **add the image first, followed by the text.**

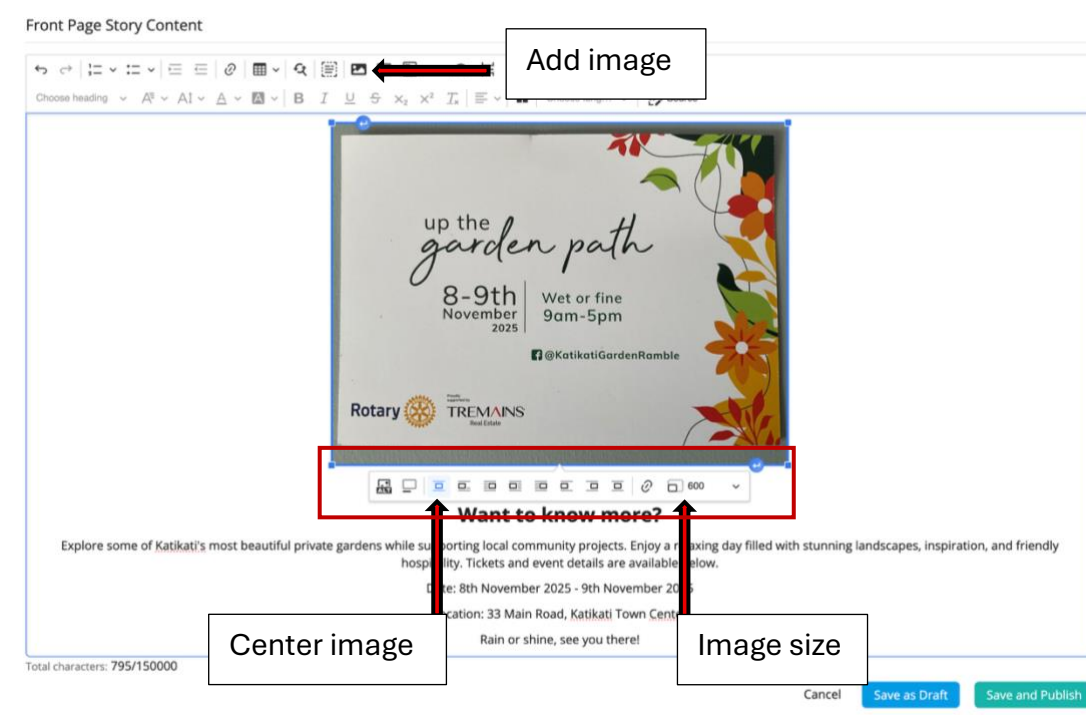

Image Recommendations

The editor accepts both **portrait** and **landscape** images.

Use the inbuilt options to add a photo. Once the image has been added, click on it to display the image formatting options. Use these options to ensure the **image is centred**.

For best results, select **600px** as the image size where appropriate, and crop any whitespace from the image before uploading. You may choose a larger size using the custom option but to retain image quality it's recommended to stay around 600px.

Avoid using images that are low quality, blurry or pixelated, particularly where the image contains text. Using a clear, tightly cropped image will help ensure the content remains easy to read when displayed on the website.

ClubRunner Home Admin → Website Content: Content Libraries → Global Custom Widgets → Front Page Story

Add event to calendar

Add event to calendar takes you to a list that allows you to easily manage upcoming and past events. Don't forget to publish events, any unpublished work will not be displayed on the front page.

This feature utilises ClubRunners Cloud Events system. You'll notice during the event set up there are a lot of options. For more information on what you can do, see <https://www.clubrunnersupport.com/kb/articles/what-is-cloud-events>.

Update Stories – Club News

Club News is the section near the bottom of the home page designed to display some stories on the home page. The story library is the overall library containing all stories added to ClubRunner. Club News is the list of stories that will appear on the home page. In this panel you can either add new stories or import existing ones from the library.

Stories for Home Page

Click on the Story Library Link below to access all of your stories, or click on one of the other links to access the stories for a specific section of your website or bulletin.

Go to: [Story Library](#) [Stories Widget](#) [Stories List Page](#) [Custom Page Stories](#) [Bulletin Stories](#)

Drag and drop story titles to change their sequence.

[Preview](#) [Add Stories from the Story Library](#) [Create New Story](#)

ClubRunner Home Admin → Website Content: Home Page Content → Homepage Stories

Update Stories – Stories Page

Stories Page is found in the navigation bar at the top of the page or by selecting the [See more stories](#) link in Club News. It is its own webpage dedicated to displaying stories not seen on the home page. It works the same as Club News in the sense that it is its own library. Meaning you can display different stories from the home page, or the same if you'd like.

Adding Stories

Story Brief and **Story Content** are part of ClubRunners inbuilt editor for creating stories.

The **story brief** is displayed on the home page, while the **story content** is displayed when user selects **Read more...**

It's recommended to keep the story brief as an introduction with some details and use the story content for the body of the text.

Image Recommendations

The editor accepts both **portrait** and **landscape** images.

Use the inbuilt options to add a photo. Once the image has been added, click on it to display the image formatting options. Use these options to **size** and **position the image**.

For best results:

- Use **250px** for images in the **story brief**
- Use **300-450px** for images in the **story content**
- **Position (wrap) images to sit around the text**

Positioning or wrapping images around the text helps maintain consistent spacing on the home page and allows the surrounding content to make better use of the space. Sizing is more flexible in the story content as we have a full web page of space to occupy. Multiple images can be added too and positioned around the text to give an article style layout.

Editor:

The screenshot shows the ClubRunners story editor interface. At the top, there are input fields for 'Title' (containing 'Lorem story'), 'Permalink' (containing 'lorem-story'), 'Author' (with a placeholder 'Type at least 3 letters of name'), and 'Date' (set to 'Jul 27, 2026'). A 'Social Media' checkbox is also present. A 'Format' button with a help icon is to the right of the title field. A 'Change' button is located on the right side of the form. Below the form is the 'Story Brief' section. A red arrow points from the 'Add image' button in the top right to the 'Add image' button in the Story Brief section. The Story Brief section contains a rich text editor with a toolbar. Below the toolbar, there is a placeholder image of two people standing. A red arrow points from the 'Image size' label to the image, and another red arrow points from the 'Left aligned wrapped around text' label to the image. The image is currently set to 250px in width.

The story of Rotary

KATIKATI
Rotary

Rotary is a global network of more than 1.2 million members who are united by a shared passion for making a positive difference in their communities and around the world. Through volunteer service, fundraising, and local initiatives, Rotary members work together to address challenges such as education, health, environmental sustainability, and community wellbeing.

Website Stylesheet

Website Stylesheet is for the website manager as it requires permission and some knowledge of HTML/CSS. The stylesheet is written in CSS and used to control HTML elements on the web page. Using the panel on the left open **Website** and click **Website Settings**. On Website and Branding, find Design and select **Website Stylesheet (CSS)**.

To edit **stylesheet.css**, use the actions tab on the right to view the file. Here I'd recommend copying the contents and pasting into a code editor such as visual studio code. Then, make changes in code editor, and reupload the new **stylesheet.css** to overwrite.

Website Structure

In ClubRunner's webpage editor, the pages are divided into **bands**, which contain the individual **widgets** that make up the page.

Band 1

- Welcome Carousel
- Welcome Text

Band 2

- Front Page Story Image
- Front Page Story Text

Band 3

- Facebook Link
- Membership Link
- Members Portal Link
- Upcoming Events
- Calendar

Band 4

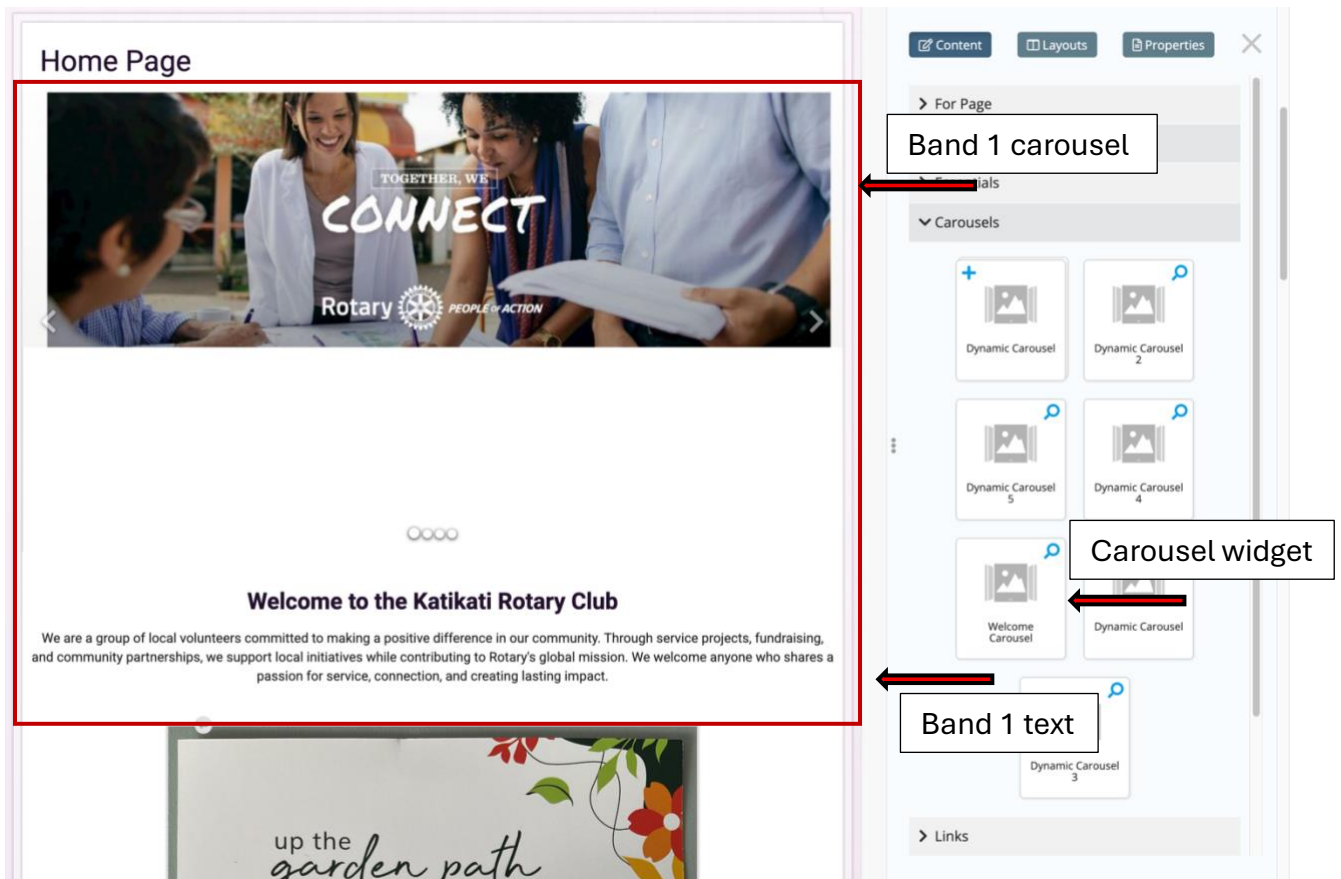

- Club News
- See More Stories Link
- Club Information

Stylesheet and Image Settings

The custom stylesheet is primarily used to provide consistent control over **widget spacing, positioning and text alignment** across the website.

Image sizing and aspect ratios are controlled within ClubRunner's inbuilt editors, rather than through the stylesheet. This allows ClubRunners responsive design to manage images appropriately across different screen sizes and devices.

Feel free to adjust the stylesheet as you'd like. An original copy can be found at <https://github.com/jackotech67/ClubRunner-project>.
